MiniBridge Rules

1. The cards are shuffled and dealt, 13 each to the 4 players.
2. High card points (HCP) are summed and announced, clockwise, starting with the dealer:

   Ace = 4 King = 3 Queen = 2 Jack = 1
3. Declarer's partner's hand is placed face up on the table as dummy.
   Partnership — A team of two players sitting across from each other.
   Declaring side — The partnership with the higher combined HCP.
   Declarer — Player with the higher HCP or first to announce if equal.
4. Declarer decides and announces the contract — the target number of tricks (7+) and choice of trump suit or no trumps. Consider a trump contract if the declaring side has 8+ cards in a suit (a fit). The following table shows the number of tricks you may expect to make:

Contract suit	Combined HCP			
	21+	23+	25+	27+
Minor (♣ or ♦)	8	9	10	**11**
Major (♥ or ♠)	8	9	**10**	–
No Trump	7	8	**9**	–

5. The opening lead is made by the player left of declarer. Tricks are played out clockwise, cards face up. Declarer plays their own hand and the dummy. The highest card of the suit led wins the trick unless trumped. You must follow suit if you can.
6. After each trick, the four cards are turned face down. The winner leads to the next trick.
7. At the end of play, the tricks won are counted and scored.
8. For the next hand, the dealer is the next player clockwise.

MiniBridge Scoring

Games are played to a predetermined goal like 1000 points or 8 deals.

Contracts made

Points for contracts made are won by the declaring side. The declaring side scores points only if they win the target number of tricks, or more.

No points are won for the first 6 tricks. Every trick won thereafter, including any beyond the contract's target, scores points according to the contract as follows:

Minor suit (♣ or ♦)	20 points
Major suit (♥ or ♠)	30 points
No trumps	40 points (trick 7), 30 points (tricks 8+)

Bonuses are awarded for the contract announced:

Type	Trump suit	Number of tricks	Bonus
Game	Minor (♣ or ♦) Major (♥ or ♠) No trump	11 10 9	300 points
Part-score	any	7	50 points

Unsuccessful contracts

If a contract is not made (i.e., the target number of tricks is not reached), the defending side scores points instead of the declaring side. The defenders score for every trick short of the target:

Each undertrick	50 points
