MiniBridge Rules

1. The cards are shuffled and dealt, 13 each to the 4 players (or taken from a pre-dealt board).
2. Points are counted and announced, starting with the dealer and taking turns clockwise, using the scale:

   Ace = 4 King = 3 Queen = 2 Jack = 1
3. The points for each partnership are totalled and the side with the most points becomes the declaring side. The declarer is the member of the declaring side with the most points, or the first to announce if equal. Declarer's partner's hand is placed face up on the table as dummy.
4. Declarer decides and announces the contract – the target number of tricks and choice of trump suit or no trumps. Target numbers of tricks may be:

   Part score: 7+ Game in no trumps: 9+
   Game in ♥ or ♠: 10+ Game in ♣ or ♦: 11+
5. The opening lead is made by the player on declarer's left. Tricks are played out clockwise, cards face up. Declarer decides the play of the cards from the dummy.
6. After each trick has been completed, cards in that trick are turned face down. The winner of each trick leads the first card to the next trick.
7. At the end of play, the tricks won and lost are counted and agreed, and the score is calculated.
8. For the next hand, the dealer is the next player clockwise.

MiniBridge Scoring

Contracts made

Points for contracts made are won by the declaring side. The declaring side scores points only if they win the target number of tricks, or more.

No points are won for the first 6 tricks. Every trick won thereafter, including any beyond the contract's target, scores points according to the contract as follows:

♣ or ♦	20 points
♥ or ♠	30 points
No trumps	40 points for trick 7, 30 points thereafter

Bonuses are awarded for the contract declared, not for extra tricks won:

For a part-score contract: 50 points
(at least 7 tricks)

For a game contract: 300 points
(at least 9 tricks in no trumps, 10 tricks in ♥ or ♠, 11 tricks in ♣ or ♦)

Unsuccessful contracts

If a contract is not made (i.e., the target number of tricks is not reached), the defending side scores points instead of the declaring side. The defenders score as follows, for each trick short of the target:

Per undertrick: 50 points
